

Financial Report Fiscal Year-to-Date As of April 2011

Report to the City Council

Prepared by City Treasurer – Finance and Accounting Division

May 19, 2011

FINANCIAL REPORT FOR YEAR-TO-DATE APRIL 2011

The following is a financial summary of the City's YTD April 2011 General Fund, Transportation Fund and Fleet Fund. The focus of the report is on the General Fund, which is the primary operating fund of the City. The General Fund exists to account for the resources devoted to finance the services traditionally associated with local government. Included in these services are police and fire protection, parks and recreation, planning and economic development, general administration of the City, and any other activity for which a special fund has not been created.

The report includes a summary for sources and uses by major categories. Significant budget to actual variances are highlighted. The report also includes Appendix 1 which details the City's Privilege (Sales) Tax by major category. Sales Tax receipts received in the current month are based on prior-month activity.

Note: Amounts are rounded in millions; therefore, differences may occur.

Sales Taxes

Scottsdale's total City sales tax rate is 1.65 percent. Of that amount, 0.55 percent is dedicated to the specific purposes related to transportation and preservation (which are accounted for in Special Revenue Funds) and 0.10 percent is dedicated to public safety (accounted for in the General Fund). The remaining 1.0 percent of the sales tax is also accounted for in the General Fund and is available to fund basic municipal services such as police, fire, libraries, and parks. Sales tax receipts received in the current month are based on prior month activity. This general-purpose sales tax is the City's single largest revenue source. Revenues from two of the sales taxes categories (construction and rental) have seen dramatic decreases over the prior year and have not resumed to "normal" levels. The sales tax category results can be found in Appendix 1.

% Change vs. Prior Year		-11%	0%	-2%		

Actual to Revised Budget variance of \$1.4 million or 2%:

Automotive sales are up attributing to a favorable \$0.7 million increase in General Purpose sales taxes. The Retail sales tax category is also up by \$0.4 million due in part to three large audit payments totaling \$0.2 million. The Dining sales tax category is showing a \$0.2 million favorable result. See Appendix 1 for further information about results by sales tax categories.

State-Shared Revenues

These revenues are derived from state shared sales taxes, income taxes (revenue sharing), and vehicle license taxes (auto lieu) based on a statutorily determined formula, primarily driven by population. On a per capita basis, sales taxes generated in Scottsdale tend to be higher than most other cities/towns due to higher wealth, consumer spending habits, and larger amounts of visitor/tourist spending. As directed by statute, the State distributes the shared portion of State sales taxes back to local governments based on population, not by the amount of sales taxes collected within the local jurisdiction.

Total State Shared Revenues	\$52.2	\$46.6	\$40.1	\$40.7	(\$0.6)	-1%
% Change vs. Prior Year		-11%	-14%	-13%		

Actual to Revised Budget variance of (\$0.6) million or (1%):

State sales taxes saw a sixth consecutive monthly year-over-year positive growth. However, the State's budget estimates were more optimistic than the actual results to date resulting in the negative variance. Based on the recent positive trend, the negative variance is diminishing.

Charges for Services/Other

Charges for Services include numerous revenues such as building permits, recreation fees, fire department fees, WestWorld fees, interest income, and property rentals. Also included are cost allocations from the General Fund to the enterprise funds. Certain components of this revenue source are subject to dramatic peaks and valleys from year to year. For example, building permit fees are based on developers' interest in construction projects and ability to secure financing for the projects.

% Change vs. Prior Year		-1%	-6%	-7%		

Actual to Revised Budget variance of \$0.5 million or 1%:

Interest earnings are currently showing a favorable result since performance on investments is more favorable than was conservatively budgeted. Public Defender and Jail Reimbursements originally budgeted in Court Fines, are actually being reported in Reimbursements and, therefore, are creating offsetting variances in each account. Building Permit Fees & Charges is showing a decline attributable to larger than expected smaller valuation type projects being submitted for review. Positive variance in Property Rental is a timing issue where revenue was received earlier than budgeted.

Property Taxes

In the General Fund, property taxes are comprised only of the "Primary" property taxes levied on the assessed value of all property within the City to help pay for basic operations of the City. Secondary property taxes are not included here as they must be used solely for General Obligation bond debt service payments. Increases in revenue from year to year reflect new property additions to the tax roll and Council actions to increase total revenue as legally allowed.

Actual to Revised Budget variance of (\$0.2) million or (1%):

An unfavorable variance is related to a class action lawsuit against the County Assessor that has been in process since 1995 and was settled in June 2010. The settlement was not known at the time of forecasting the FY2010/11 budget and will result in a year-end variance of (\$0.2) million versus the budget.

Franchise Fees and In-Lieu Taxes

This category represents revenues from utility and cable providers.

% Change vs. Prior Year		0%	-10%	-6%		

Actual to Revised Budget variance of (\$0.5) million or (5%):

The unfavorable variance in Electric and Gas Franchise is driven by a budget assumption that franchise revenue would increase by 4.6 percent year over year. The Electric and Gas Franchise revenue actually has declined by approximately 2 percent year-to-date versus prior year, possibly due to conservation of energy costs and milder summer weather. Cable TV franchise revenue has decreased based on a contract reduction of 0.3 percent.

Note: The Enterprise Franchise Fees and the Enterprise In Lieu Property Tax were previously reported in this category. However, to stay consistent with the City's Comprehensive Annual Financial Report (CAFR) these two items are now reported in the Transfers In.

Bed Taxes

A bed tax is applied to lodging room charges for stays of 29 days or less (transient) in hotels or short-term rentals. Effective July 1, 2010, the bed tax rate was increased from 3 percent to 5 percent. (Beginning in FY 2009/10, 100 percent of the Bed Tax revenue was recorded in the General Fund with a corresponding transfer of 80 percent to the Special Programs Fund.) Prior to the tax rate increase, 80 percent of the bed tax revenue was transferred to the Special Program Fund and was restricted for tourism development including the payment of contracts to increase tourism and fund debt service for destination attractions. The City started receiving the revenues from the new 5 percent tax rate in September 2010 and 50 percent of the 5 percent bed tax collections are transferred to the Special Programs Fund to be used for destination marketing purposes.

Actual to Revised Budget variance of \$0.4 million or 4%:

Increased tourism activity has produced favorable results for the past 4 months.

Transfers In

For FY 2010/11, transfers in reflect funds received from the Capital Improvement Plan (CIP) Funds and the Water and Sewer Funds (Franchise Fees, In Lieu Property Tax, and Water Campus Security). In Lieu Property Tax transfers from the Water and Sewer Funds are being phased out over the three-year period FY 2010/11 - FY 2012/13.

Personnel Services

Personnel Services include the salaries and wages (pay for time worked, vacation, and sick leave) plus the City's contribution for fringe benefits such as retirement, social security, health, and workers' compensation insurance. It is also inclusive of vacancy savings, the medical and vacation leave accrual payouts that are made at the time of separation from the City, and position reclassifications.

*Includes budgeted vacancy savings, leave accrual payouts and position reclassifications.

Actual to Revised Budget variance of \$1.9 million or 1%: The positive variance is primarily the result of anticipated Community and Economic Development, Community Service and Police overtime usage which did not occur. The budget spread was developed using last year's activity level as an indicator. It is expected that a portion of this positive variance will result in year-end savings. Additionally, the overtime variance has created a favorable variance in the Federal Insurance Contributions Act (FICA) and retirement accounts. The part-time wages budget in Community Services is also contributing to the favorable variance due to the ongoing efforts of re-evaluating work schedules and coverage.

Vacancy Savings/Payouts/Reclassifications

The 'Vacancy Savings / Payouts / Reclassifications' is the net of the Citywide vacancy savings, the medical and vacation leave accrual payouts that are made at the time of separation from the City, and position reclassifications.

	2009/10 <u>Actual</u>	2010/11 <u>Adopted Budget</u>	2010/11 <u>Year-To-Date</u>	<u>Remaining</u>
Vacancy Savings	(\$5.1)	(\$3.0)	\$3.0	-
Vacation Leave Payouts	\$0.7	\$0.6	(\$0.5)	\$0.1
Medical Leave Payouts	\$1.0	\$0.8	(\$0.8)	-
Reclassifications	\$0.2	\$0.3	-	\$0.3
Total Vacancy Sav/Payouts/Reclass	(\$3.2)	(\$1.3)	\$1.7	\$0.4

Total Achieved/(Used) YTD of \$1.7 million The City has achieved \$3.0 million in vacancy savings year-to-date. The City Manager has been intentionally holding positions vacant and delaying recruitments in an effort to reach the vacancy savings budgeted amount of \$3.0 million. Based on the fiscal year-to-date activity, \$3.4 million in vacancy savings is anticipated at year-end. Additionally, the budget for position reclassifications remains unused; however it may be needed for vacation and/or medical payouts in the remaining months of the fiscal year.

Contractual Services

This category includes expenditures for services performed by firms, individuals, or other City departments.

Actual to Revised Budget variance of \$0.8 million or 2%: The favorable variance is primarily attributable to the jail services contract with Maricopa County. The City has experienced lower jail services expenses partially attributable to the Home Detention Program. In addition, the variance is also the result of a delayed payment on a large software maintenance agreement. The agreement is being negotiated, and is expected to be paid in full by the end of the fiscal year. Additionally, the variance is a result of those expenditures that are difficult to budget for because of their unpredictable timing and nature of maintenance repairs and emergencies (e.g. repair, building maintenance services, painting, fire alarm maintenance, elevators, etc).

Commodities

This classification includes supplies, repair and replacement parts, small tools, and maintenance and repairs.

Actual to Revised Budget variance of \$0.6 million or 10%: The favorable variance is a result of various accounts, such as maintenance services and repair materials, and education and recreation supplies which are difficult to budget in the appropriate period as they do not have a predictable spending pattern. In addition, favorable variance is also a result of citywide efforts to conserve and reduce supplies costs. The variance is also related to a delay in the ordering of replacement uniforms and personal protection equipment, which was expected and budgeted for on a quarterly basis.

Capital Outlays

Capital outlays include the purchase of land, the purchase or construction of buildings, structures, and facilities, plus machinery and equipment. It includes expenditures that result in the acquisition or addition of a fixed asset or increase the capacity, efficiency, span of life, or economy of operating an existing fixed asset. For an item to qualify as capital outlay the expenditure must meet all of the following requirements: (1) have an estimated useful life of more than two years; (2) have a unit cost of \$5,000 or more; and (3) be betterment or improvement.

Actual to Revised Budget variance of \$2.8 million or 100%: The favorable variance is the result of a few projects' expenditures being applied to the Contractual Services and Commodities accounts instead of the Capital Outlays accounts where the funding for those projects was budgeted. Thus creating an offsetting variance in Contractual Services and Commodities. The favorable variance is also the result of the planned capital operating projects that have not been implemented due to budget constraints and the Citywide initiative to limit expenses to FY 2009/10. In addition, a few operating projects are being re-evaluated to determine if they can be deferred until future years. The City does anticipate year-end savings in this category.

Debt Service & Contracts Payable

This activity is debt payments related to Municipal Property Corporation (MPC) bonds that are to be repaid through excise taxes and contractual obligations related to development agreements (funded by sales tax rebates) which vary based on the actual sales tax collections.

Debt Service & Contracts Payable	\$1.5	\$3.5	\$3.2	(\$0.3)	-9 %

Actual to Revised Budget variance of (\$0.3) million or (9)%: The unfavorable variance is primarily attributable to how the debt payments were budgeted and payments were made. This timing issue will offset the variance by year-end.

Transfers-Out

Transfers-Out represents the authorized exchanges of cash between funds, divisions, departments and/or capital projects.

Special Programs Fund - Planning & Dev Services	-	-	-	-	-
Total Transfers Out	\$4.7	\$6.0	\$5.1	(\$0.9)	-18 %

Actual to Revised Budget variance of (\$0.9) million or (18)%: The unfavorable variance in Bed Tax Fund is partially related to the actual revenue being greater than budgeted, resulting in increased Transfers Out to the Special Programs Fund for the Convention and Visitor's Bureau (CVB) contract. The Bed Tax Fund's unfavorable variance is also the result of the City Council authorized Bed Tax transfer to the Capital Improvement Program for the new WestWorld Americans with Disabilities Act (ADA) parking lot capital project, Desert Discovery Phase III, and Tony Nelssen Equestrian Center expansion. The positive variance in Special Programs Fund - Community Services is the result of eliminating the Partnership Funding and the Human Services' Affordable Housing program both of which are budget reductions initiatives.

The Transportation Fund receives and expends the City's allocation of the Arizona Highway User Revenue Tax (HURF) as well as other transportation related revenues. The amount of HURF available to each City is allocated based on population. These monies must be used for street construction, reconstruction, maintenance, or transit. The State of Arizona requires the City to establish and maintain an accounting for Highway User Revenue Funds. The fund also accounts for the 1989 voter approved Transportation Privilege (Sales) Tax of 0.20 percent which is dedicated to funding transportation improvements and operations. Sales Tax receipts received in the current month are based on prior month activity. Fifty percent of the Transportation Sales Tax is transferred to the Capital Improvement Fund for transportation related capital improvement projects.

Actual to Revised Budget variance of \$2.5 million or 9%:

\$2.0 million of the "Other" variance is related to American Recovery and Reinvestment Act (ARRA) funding. In FY 2009/10 the City of Scottsdale was awarded \$4.6 million in ARRA funding for street overlay projects. At the time, the City anticipated reimbursements for the federal grant funding at \$2.6 million in FY 2009/10 with the remaining \$2.0 million to be collected in FY 2010/11. The projects did not begin as planned which resulted in \$0 reimbursements received in FY 2009/10. Staff anticipates the full \$4.6 million to be reimbursed and collected in FY 2010/11. Additionally, transit agreements for local bus service are currently experiencing favorable results accounting for \$0.3 million of the variance. Finally, other reimbursements from outside sources accounts for \$0.4 of the variance.

HURF Taxes are lower than budget due to less demand for fuel due to economic conditions. See Appendix 1 for further information about results by sales tax categories.

*Includes budgeted vacancy savings, leave accrual payouts and position reclassifications.

Actual to Revised Budget variance of \$0.6 million or 3%: The favorable variance in Contractual Services is primarily the result of American Recovery and Reinvestment Act (ARRA) paving projects expenditures being applied to Capital Outlays and not in the Contractual Services accounts where the funding for those projects is budgeted. This recording of ARRA expenditures is then creating an unfavorable variance in Capital Outlays. In addition, the favorable variance in Contractual Services is attributable to the invoice timing for Transportation's transit contracts with the Regional Public Transportation Authority (RPTA) and the Trolley. The RPTA invoices are yet to be received due to contracts that were modified by the RPTA. The City Council approved these contracts in March and the City is currently awaiting receipt of the invoices from the RPTA. Additionally, the variance in Commodities is a result of those expenditures that are difficult to budget for because of their unpredictable timing and nature of maintenance repairs and emergencies (e.g. materials to maintain and repair machinery, equipment, buildings etc).

The Fleet Management Fund is classified as an Internal Service Fund. This fund is structured to recover Fleet costs through annual user fees that are charged to each Division's cost center(s) assigned City vehicles and other related equipment that may incur fleet related expenditures. The annual internal user fees consist of two categories: 1) maintenance and operation (M & O) rates, established to recover the estimated costs of fuel, parts, and labor for vehicles and related equipment, and, 2) replacement rental rates, similar to car payments, except Fleet uses the accumulated payments to purchase replacement vehicles and other related equipment at the end of the current vehicle's useful life.

Actual to Revised Budget variance of \$3.0 million or 25%: The favorable variance in Contractual is primarily the result of a delay in expenditure processing. The Commodities favorable variance is related to fuel. The amount budgeted for fuel assumed a standard rate higher than the actual rate recorded year to date. The City expects a portion of this variance will be used due to the rise in fuel costs. Finally, the Capital Outlays favorable variance is attributable to the difficulty of forecasting the timing of vehicle acquisitions, and delaying expenditures until vehicle achieves all required miles and age replacement criteria.

Privilege (Sales) & Use Tax Collections For April 2011

(For Business Activity in March 2011)

Appendix 1 contains information regarding the “actual” revenue collections from the 1.0 percent Privilege and Use Tax reflected in the General Fund, 0.2 percent dedicated Transportation Privilege Tax, 0.2 percent dedicated Preserve Privilege and Use Taxes, 0.15 percent additional dedicated Preserve Privilege and Use Taxes, and 0.1 percent dedicated Public Safety Privilege and Use Taxes, including adjustments for related license revenues, late collections and audits. While the report includes the actual year-to-date tax collections for the funds previously noted, only the General Fund portion (1.0 percent) of the tax is unrestricted and available for general government purposes.

The report shows a fiscal year Privilege and Use Tax (1.00% General Purpose) collection increase of 2 percent compared to the revised Budget, and an increase of almost 1 percent compared to the same period a year ago.

Rental Sales Taxes

The rental category includes rentals of commercial and residential real property and personal property rentals, (such as rentals of formal wear, DVD's, home health equipment, recreational goods, electronics, appliances, etc.)

Actual to Revised Budget variance of (\$0.1) million or (1%): The unfavorable variance is the result of commercial building rental rates continuing to be lower and the vacancy rate remaining relatively steady.

Miscellaneous Retail Stores Sales Taxes

This category includes small clothing stores, art galleries, luggage stores, home furnishing stores, jewelry stores, drug stores, hobby stores, household appliance stores, sporting goods stores, florists, computer stores, hardware stores, and pet supply stores.

Actual to Revised Budget variance of \$0.4 million or 4%: The favorable variance is due to retail sales increasing for electronics and clothing. There also have been some larger audit payments.

Major Department Stores Sales Taxes

This category includes large department stores, warehouse clubs, supercenters, and discount department stores.

Actual to Revised Budget variance of \$0.0 million or 0%: No explanation necessary.

Automotive Sales Taxes

The automotive category includes automobile dealers, motorcycle dealers, automotive repair shops, tire shops, car washes, and car leasing companies.

Actual to Revised Budget variance of \$0.7 million or 10%: The favorable variance is a result of an increase in automotive sales and mirrors the nation-wide trend.

Food Stores Sales Taxes

This category includes grocery stores, candy stores, meat markets and convenience stores.

Actual to Revised Budget variance of \$0.0 million or 0%: No explanation necessary.

Construction Sales Taxes

The construction tax is collected on all construction activity; commercial and residential; new and re-model. It also includes landscaping, painting, flooring installation, siding, roofing, concrete, plumbing, heating, electrical, framing, drywall, infrastructure, masonry, finish carpentry, etc.

Actual to Revised Budget variance of (\$0.3) million or (5%): The unfavorable variance is mostly a result of a decrease in commercial building projects.

Dining/Entertainment Sales Taxes

The restaurant category includes restaurants, bars, cafeterias, mobile food vendors, and caterers.

Actual to Revised Budget variance of \$0.2 million or 3%: The favorable variance is due to increased sales at restaurants and bars as well as the receipt of a large audit payment in March.

Other Taxable Activity Sales Taxes

This category includes movie theatres, golf courses, gyms, bowling centers, amusement arcades, interior designers, publishers, banks, doctors, lawyers, accountants, beauty salons, barber shops, personal goods repair shops, photographers, advertising, wholesalers, and manufacturers.

Actual to Revised Budget variance of \$0.5 million or 12%: The computer wholesalers have reported several large taxable sales in recent months. Additionally, there is a new movie theatre that opened.

Hotel/Motel Sales Taxes

This category includes lodging space rental on a short-term basis and other activities provided at the hotel/motel.

Actual to Revised Budget variance of \$0.0 million or 0%: No explanation necessary.

Utilities Sales Taxes

This category includes businesses that provide telecommunication (landlines and cellular), electricity, gas, or water services.

Actual to Revised Budget variance of (\$0.1) million or (3%): The telecommunication sector of this category continues to show decreases.

License Fees, Penalty & Interest

This category consists of application and license fees for Transaction Privilege (sales) tax licenses, interest, and penalties.

Actual to Revised Budget variance of \$0.0 million or 0%: No explanation necessary.
